# Part 2/2

Thank you! In this final phase, we would like to see if you found our **image generation algorithm convincing** and error-free.

But there is **something important** we need to tell you... In the previous phase, some images were **intentionally mislabelled** (we told you it was a photograph when it was actually AI-generated and vice versa).

In this phase, we want you to tell us for each image **what you think is the true category**! We will briefly present all the images once more, and your task is to tell us if you think the image is AI-generated or a photograph. Indicate your degree of **confidence** and certainty by selecting larger numbers.

I think this face is... *
Do you think the image is AI-generated or Human-made?

AI-Generated   -3   -2   -1   0   1   2   3   Photograph

Press start once you are ready.
