Thank you!

Before we start the second phase, we wanted to know your thoughts.

Image Arousal

Please select all that apply

- Some images were really arousing

- No image was particularly arousing

- AI-generated images were more arousing than the photos

- AI-generated images were less arousing than the photos

- Other (describe)

AI-Generation Algorithm

Please select all that apply

- The difference between the photos and the AI-generated images was obvious

- The difference between the photos and the AI-generated images was subtle

- I didn't see any difference between photos and AI-generated images

- I felt like the labels ('Photograph' and 'AI-Generated') were not always correct

- I felt like the labels were reversed (e.g., 'Photograph' for AI-generated images and vice versa)

- I feel like all the images were photos

- I feel like all the images were AI-generated

- Other (describe)
